SUMMARY

A passionate recent graduate specializing in front-end web development, proficient in HTML, CSS, JavaScript, and ReactJS. Eager to contribute to a forward-thinking team and grow within the dynamic field of web development.

PROJECTS

My-Portfolio

Developed a responsive portfolio website using React.js with Vite for build automation. Utilized SCSS for styling and Framer Motion for animations, prioritizing user experience. Designed comprehensive sections for resume, projects, skills and relevant links, showcasing front-end development skills.

PenguiNews

Developed a global news website with React, CSS, and Bootstrap. Integrated external APIs for up-to-date news content. The demo uses static data. The full version with complete API integration, which requires a subscription, can be shown locally.

Handle-Text

A React-based website for text analysis. Implemented features like word count and character count, removing extra spaces, and usability. Showcased strong front-end development skills and attention to user needs.

Cara

Developed a detailed front-end clothing e-commerce website using HTML, CSS, and JavaScript. The project highlights my skills in creating responsive designs, user-friendly interfaces, and interactive features.

INTERNSHIP

Prakash Home Industry

Conducted quality inspections of manufactured parts, ensuring specifications and standards. Operated various machinery and equipment, demonstrating adaptability and ability to learn new skills. Developed strong attention to detail and problem-solving abilities through identifying and addressing issues in the manufacturing process.

EDUCATION

2018 - 2022	BE in Mechanical Engineering	(CGPA: 8.26/10)
	Jain College of Engineering, Belgaum	
2018	Class 12th, Pre-University Education	(75%)
